

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on 8/21/06, assigned serial 10/590082 and title "Optoelectronic taxi-assistance safety device for aircraft".
2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

After carefully reviewing the application in light of the amended claims and the additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

As per claim 1, the prior art of record does not disclose an optoelectronic taxi-assistance device for an aircraft in an airport, device comprising if the aircraft makes a turn, a safety symbol include an arrow of variable size, a length of the arrow is maximum when entering the turn and zero when coming out of the turn. This limitation in combination with the other elements in the claim was not shown or suggested by the prior art.

Claims 1, and 3-13, are allowable over the prior art of record.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dalena Tran whose telephone number is 571-272-6968. The examiner can normally be reached on M-W (in a first week of a bi-week), and T-R (in a second week of bi-week) from 7:00AM-6:00PM.
